

IMPORTANT DATES

May 27, 2024

Submission of Full Paper

June 24, 2024

Notification to Authors on the
Decision (acceptance – minor
revision – rejection)

July 8, 2024

Revised Papers Upload

July 10, 2024

Notification to Authors of
Revised Papers on the Decision
(acceptance – rejection)

July 12, 2024

Final Manuscript Upload of ALL
Papers & Author Registration

ORGANIZERS

General Chair

Paolo Attilio Pegoraro

University of Cagliari, Italy

Technical Program Chair

Alessandro Mingotti

University of Bologna, Italy

Technical Program Co-Chair

Sergio Toscani

Politecnico di Milano, Italy

Local Organization

Mario Luiso

University of Campania "Luigi
Vanvitelli", Italy

Steering Committee

Mihaela Albu

Politehnica University of Bucharest,
Romania

Juan José González de la Rosa

University of Cádiz, Spain

Guglielmo Frigo

Federal Institute of Metrology,
Switzerland

Jan Meyer

Technische Universität Dresden,
Germany

Carlo Muscas

University of Cagliari, Italy

Lorenzo Peretto

University of Bologna, Italy

Ferdinanda Ponci

E.ON Energy Research Center
RWTH, Aachen University, Germany

Johan Rens

North West University, South Africa

CALL FOR PAPERS

14TH IEEE INTERNATIONAL WORKSHOP ON APPLIED MEASUREMENTS FOR POWER SYSTEMS

The workshop deals with all the aspects related to measurement applications in new power systems and networks (Smart Grids) and has the main goal of encouraging discussion on these topics among experts coming from academia, industry and utilities.

The main topics on which AMPS 2024 is expected to represent a qualified forum for providing contributions to the advancement of knowledge include, but are not limited to:

TOPICS OF INTEREST

- » Conventional and nonconventional current and voltage sensors
- » Phasor Measurement Units
- » Measurements systems and devices in Smart Grids
- » Distributed measurement systems
- » State estimation
- » Measurements on electric power plants and machines
- » ICT solutions and architectures in power system measurements
- » New generation of revenue metering
- » Measurement systems for diagnostic in power networks
- » Definition and measurement of Power Quality indices
- » Fault detection
- » Measurements for storage

Prospective authors should submit a **5-6 pages FULL PAPER**, consisting of a complete description of the proposed technical content and applicable research results, using the on-line submission system. After the review process, the decision could be: **acceptance, minor revision or rejection**. In case of revision, papers will be accepted only upon condition that the changes requested by the Reviewers are satisfactorily addressed by the Authors in the final submitted papers, which will be checked by the Technical Program Committee. **Final papers may be rejected if the Reviewers' remarks have not been properly addressed.**

A submission implies willingness to register and present the work if the paper is accepted for presentation at the Workshop.
